

RESIDENTIAL NEW CONSTRUCTION PROGRAM

2015 PROJECT APPLICATION

INSTRUCTIONS:

1. The Residential New Construction program is available to customers building a home or significant rehabilitation projects within the residential service territory of Connecticut Light & Power (CL&P) or The United Illuminating Company (UI). To apply ("Applicant"), first fill out the project contacts and project information below. Then, review the sections titled "Track 1: HERS Rating Path" and "Track 2: Prescriptive Path" to determine which path you will apply for and what the requirements are. Applicants may apply for only one of the two paths outlined in this application. Both Track 1 and Track 2 require the outside contracted services of a certified Home Energy Rating System (HERS) rater to inspect and rate the home. The associated costs are the responsibility of the Applicant. A list of HERS raters and a description of what is included in their services can be found within the Residential New Construction portion of the following websites: www.cl-p.com, www.uinet.com or energizect.com.
2. Please complete the **INITIAL PLAN** sections, sign the signature section on the last page of this form, and submit to the applicable CL&P/UI Program Administrator ("Administrator") indicated at the bottom of this page **PRIOR TO INSULATING THE HOME**. If the Applicant is not the homeowner, the homeowner's signature must also be obtained. If homeowner is not yet known, the current property owner's signature is required. For multi-family/multi-unit projects, only one application is necessary for groups of units with similar characteristics. **FILLING OUT THIS FORM DOES NOT AUTOMATICALLY QUALIFY YOU FOR THE RESIDENTIAL NEW CONSTRUCTION PROGRAM.**
3. Upon submitting the application, the CL&P/UI Administrator will review the application and sign it if the requirements have been met. If they have not or if additional upgrades can be made, the Administrator will contact the Applicant to discuss all options. The Applicant is not bound to the initial specifications; however, any changes are still subject to the minimum requirements listed on this application.
4. Once the home is complete and a final inspection has been completed by a HERS rater, the Applicant is responsible for submitting the "As Built" required paperwork within two months of completion or the incentive will be forfeited. A HERS rater may submit the Application on behalf of the Applicant. Once all paperwork has been submitted and the package reviewed by the Administrator, the payment will be processed and paid **TO THE APPLICANT**.

2013 Zero Energy Challenge co-winning home located in Farmington, CT.

Send your completed application to the following address as it pertains to your residential electric service territory:

Connecticut Light & Power
 107 Selden Street, Berlin, CT 06037
 Contact: Enoch Lenge
 Email: enoch.lenge@nu.com
 Phone: (860) 665-5369, Fax: (860) 665-3030

or The United Illuminating Company
 180 Marsh Hill Road, M/S AD-2A, Orange, CT 06477
 Contact: Jenn Parsons
 Email: jennifer.parsons@uinet.com
 Phone: (203) 499-5935, Fax: (203) 499-2800

You may be eligible for federal tax credits. Please refer to www.energystar.gov for more information.

RESIDENTIAL NEW CONSTRUCTION INCENTIVE PATHS: TRACK 1 OR TRACK 2

Below are the 2 program tracks that the Connecticut utilities will provide incentives towards for residential new construction and significant rehabilitation projects. In order to participate in either **TRACK 1** or **TRACK 2**, the Applicant, at their own expense, must hire the services of a HERS rater to complete the necessary energy modeling inspections and testing of the home. A list of certified HERS raters can be found at EnergizeCT.com.

Check the boxes below to indicate which track the home will follow and fill out the initial plan section:

<input type="checkbox"/> TRACK 1: HERS RATING PATH <input type="checkbox"/> High Performance Certification Bonus Incentive OR <input type="checkbox"/> TRACK 2: PRESCRIPTIVE PATH	INITIAL PLAN (BEFORE CONSTRUCTION)		AS-BUILT (POST CONSTRUCTION)

	Estimated Total	\$	Installed Total	\$

NOTE: RNC projects where residents who meet state limited income eligibility requirements (60% state median income) will receive 125% of the incentives in this application.

ACCEPTANCE OF AGREEMENT

A signature by all parties indicates that the Applicant's information has been received and that the characteristics listed on the application either meet the RNC program's requirements for the specific incentives to which the Applicant is applying or have been discussed by the Administrator and Applicant. The initial signatures do not bind the Applicant to participate in the program. The signature by the property owner (if not the Applicant) ensures that he/she is aware that the builder, vendor, or other third party is participating in this incentive program and will receive the incentive payment should they meet the necessary criteria. He/she is also aware that a second application may not be submitted for the same property.

TERMS AND CONDITIONS

These Terms and Conditions are a part of the Project Application for the above referenced Project. Project Application must be submitted prior to completion of home. Necessary inspection will be conducted when measures are installed.

Applications must be signed by CL&P/UI Program Administrator. This Project Application is in effect until December 31 of the year following the date of acceptance of the Project Application by CL&P/UI. All homes must be completed and ready for inspection by December 15 of the year following the date of acceptance to be eligible to receive any incentives on application. Any homes not completed by December 15 of the year following the date of acceptance of the Project Application by CL&P/UI may be subject to changes in the program.

The Builder/Homeowner agrees to allow CL&P/UI and its agents access to the project for the purpose of conducting a Project Inspection(s) to confirm the home(s) has been constructed with all of the energy-saving characteristics, materials, and equipment listed on the Project Agreement Form(s). All measures must be installed in order to qualify for incentives.

Copies of all receipts with equipment make, model, and size documenting the installation of the equipment once the project is complete must be submitted. Equipment includes insulation, HVAC and geothermal machines, and hot water heaters. Incentives will not be paid until all appropriate paperwork has been submitted. In the case of HERS rated homes, an electronic REM/Rate file and HERC must be submitted. Please see the "2015 Residential New Construction Program Requirements and Submission Checklist" for a full list of requirements. When an incentive has been offered for a geothermal HVAC system, the appropriate version of the CL&P/UI Verified Installed Performance (VIP) Worksheet must be completed by the installing geothermal system contractor before the home will be considered complete and eligible for any incentive payments. The VIP Worksheets are available from CL&P/UI on the geothermal heat pump rebate portion of each company's website.

The payment of the incentives shown on the Project Application is contingent upon the home(s) being constructed with all of the energy saving characteristics, materials, and equipment listed in the "As Built" portion of the Project Application form(s). Incentives are subject to change. It is the responsibility of the applicant to select and pay the services for a certified HERS rater.

CL&P/UI assumes that the signed applicant is the party to be paid, and therefore will make the check payable to him/her. Only one payment will be issued for qualifying incentive for a given unit. Builders/owners/vendors will not be permitted to apply separately for the same incentive. These incentives may not be combined with any other utility or energy service offer.

FORWARD CAPACITY MARKET AND CLASS III CREDITS: By signing this document and as a condition to receiving a rebate pursuant to this program, customer hereby assigns to its participating electric utility, either CL&P or UI (as the case may be), any and all payments, benefits and/or credits in connection with the Forward Capacity Market or any currently existing or successor or replacement markets, (including, but not limited to, any and all "LICAP", "ICAP", transitional credits or payments or any and all other capacity-related credits, payments and/or benefits for which customer is eligible) and that are associated with or applicable to customer's participation in the Residential New Construction Program. Customer hereby assigns to either CL&P or UI all of its right, title and interest in and to any and all such capacity payments, credits and/or benefits and shall take any and all action, including executing and delivering any and all documents and instruments, as requested by either CL&P or UI to evidence the same. Forward Capacity Market means the market for procuring capacity pursuant to ISO-NE Tariff, FERC Electric Tariff No. 3, Section III, Market Rule 1, Section 13, any changes to Forward Capacity Market, or any successor or replacement capacity procurement process.

In accordance with the Department of Public Utility Control's (DPUC, now known as the Public Utilities Regulatory Authority or "Authority") September 29, 2008 decision in Docket No. 05-07-19RE01, DPUC Proceeding to Develop a New Distributed Resources Portfolio Standard (Class III) – 2007 Revisions, (as supplemented by the Department February 11, 2010 decision in Docket No. 05-07-19RE02), customer is not to receive or retain any Class III renewable energy credits in connection with the Residential New Construction Program and customer hereby acknowledges and agrees the same. Customer further acknowledges and agrees that such credits shall be retained by either CL&P or UI (as the case may be) for the benefit of their customers through the Connecticut Energy Efficiency Fund. In the event that the Authority amends or modifies the allocation of Class III conservation credits as reflected in its September 29, 2008 decision, then the allocation of such credits utilized by either CL&P or UI (as the case may be) shall be the allocation in effect (per the applicable Authority decision) on the date that the customer submitted its Rebate Application documents to either CL&P or UI (as the case may be). Customer further acknowledges and agrees that customer is not to retain or receive any environmental credits are benefits that may be ascribed or attributed from time to time to customer's participation in the Residential New Construction Program and any and all such benefits or credits shall be retained by either CL&P or UI (as the case may be) for the benefit of their customers through the Connecticut Energy Efficiency Fund.
